

Arson Prevention Products

People across the UK are beginning to prepare for Bonfire Night celebrations. We have some simple solutions to help keep people safe in their homes. Our low cost solution is a Security Jammer but we have a variety of products on offer, visit our website or contact us for more information.

Contact our Sales Team on 01352 762266 or email sales@solonsecurity.co.uk for more information.

Fire Services across the UK are often called out to attend fires where the cause has been objects pushed through letterboxes.

We have a simple and cost effective solution- a Security Jammer. A Security Jammer would typically be used to secure windows but they can be fitted around letterboxes to prevent the letterbox from being opened. The lock can be adjusted to allow normal usage of the letter box.

Other letterbox protection products available include:

[Locking Letter Plate](#) to protect letterboxes when the user feels vulnerable whilst still allowing the user to receive post during the day.

[External Mailbox](#) helps to keep arson attacks away from the immediate premises. Ideal for use with the Blanking Letter Plate.

[Blanking Letter Plate](#) is able to completely seal a letter box, ideal for use with the External Mailbox or on its own for void properties.

[MailSafe](#) is simple to fit and is designed to hang neatly behind a standard letter plate. Uses an extinguishing tube containing FE-25 gas to extinguish fires.

[MailGuard Plus](#) allows your home to be protected from attack via the letterbox without restricting the doors opening ability. Uses an extinguishing tube containing FE-25 gas to extinguish fires.
